

GREEN GRASS, CLEAR WATER

Free Virtual Workshop

Presented by:

UNH Extension Agriculture and
NH Sea Grant Extension Water
Resource Specialists

Hosted by:

Rye Conservation Commission
in collaboration with
Rye Department of Public
Works

MONDAY
May 3, 2021
6:30 - 7:30 PM

Learn tips and techniques for growing attractive, healthy lawns that helps protect water quality.

Learn how properly maintaining your lawn can help prevent water pollution, and how improperly maintained lawns can accelerate water pollution.

Who Should Attend:

Lawn care enthusiasts and do-it-yourselfers, watershed and conservation group members, and municipal officials.

[Click Here to Register!](#)
